Two New Models of the CHEVROLET

Broadening the appeal of a line of cars which has already won over 950,000 buyers since January 1st, Chevrolet presents two distinguished new enclosed models of the Chevro-let Six—the Imperial Sedan and the Sport Coupe. With beautiful new Bodies by Fisher available in a variety of striking color combinations and with numerous advanced con venience features—these new models provide those elements of distinction ordinarily associated with more expensive automobiles.

But you cannot fully fealize what an achievement they represent until you get behind the wheel and drive! For here are all the qualities of six-cylinder smoothness, power and acceleration-combined with economy of better than twenty miles to the gallon of gasoline!

Come in today. Learn for yourself the new standards of quality and luxury that Chevrolet has made available in six-cylinder cars-in the price range of the four!

The Roadster, \$525; The Phaeton, \$525; The Coupe, \$595; The Coach, \$595; The Sport Coupe, \$665; The Sedan 18675; The Imperial Sedan, \$695; The Sedan Delivery, \$595; The Light Delivery Chassis, \$400; The 134 Ton Chassis with Cab, \$650. All prices £. o. b. factory, Flint, Michigan

A Hundred Thousand Crowns For a Lump of Sugar!

"Magnificentl" exclaimed the Doge "Magnificenti exciaimed the Loge as he gazed upon a glistening cone of white Augar. "Let the grand award of one handred thousand crowns in gold be given to this worthy citizen who has brought to our beloved Republic this priceless invention."

Venice during the middle ages was

Venice during the middle ages was the great European center of the substantial trade; and it is an historical fact that near the end of the fifteenth cen-tury a Venetian citizen was awarded 100,000 crowns for having invented

It was some years ago that the pro-cess of refining sugar was brought to its present state of near perfection. There seems to be little room for improvement in the quality of the product. There is, however, much progress to be made in the methods progress to be made in the methods of growing sugar cane and the science of cultivating and breeding known varieties of cane with the object of producing plants more resistant to conditions and higher in sugar content.

In 1921 there came a near-crisis

In 1921 there came a near-crisis in the American sugar-growing industry. Louisian planters whose families had enjoyed a profitable business for many generations found that high costs, low yields and other troubles threatened the industry with extinction. A conference of planters, bankers and scientists resulted in the introduction of new seed stocks, the so-called "P.O.J." canes from Java. This and the improvement of planting and conversion methods have

This and the improvement of planting and conversion methylads have brought remarkable increases in production and a generally healthier trend in the industry as a whole.

The South Coast Company has been an important factor in this development. Its story and that of the Southern Sugar Company-of Florida are outlined in an illustrated booklet which will be sent upon request.

The Most Important **INSURANCE** of all » »

MANY motorists who would not think of letting the fire, theft, liability or property damage policies on their car lapse fail to insure the life of their motor with a constant, adequate supply of the right quality motor oil.

"STANDARD" MOTOR OIL forms a perfect film of protection between the m ing parts of your motor, preventing friction and wear, and is the best insurance you can buy for a long life of smooth operation for your car.

STANDARD OIL COMPANY

Tampa, Fla., Aug. 2, 19 ave just finished re-last issue and I

The only complaint I have to make is that you insist on running so many newsy articles that they conflict, one on one side or page with something good on the proposite side. So I guess I'll pupposite side. So I guess I'll pupposite side. So I guess I'll such ave to have two copies of the proposite side. RUSSELL KAY.
